Position: Project/Process Administrator

Survey: IT Professional, v2

Candidate IP Address: XX.XX.XX.XX

User: Recruiter

Date: Thursday, April 09, 2015

Report History:

Report Generated: June 28, 2012 - 03:45PM

ABOUT SKILLSURVEY:

SkillSurvey provides solutions that address critical points in the talent lifecycle to help talent management professionals contribute to their organization's business results by obtaining and applying more reliable and valid data and insight to inform their hiring processes. The company's flagship solution, Pre-Hire 360, is an award-winning, patented technology that utilizes a unique combination of behavioral science, talent analytics, and the ability to make comparisons to relevant norm groups. SkillSurvey's Pre-Hire 360 solution is scientifically proven to provide access to data that can be used to drive better hiring decisions based upon feedback provided by references on a candidate's past job performance. SkillSurvey's cloud-based software products are being used by 1,400 companies, institutions and organizations. Visit SkillSurvey at www.skillsurvey.com.

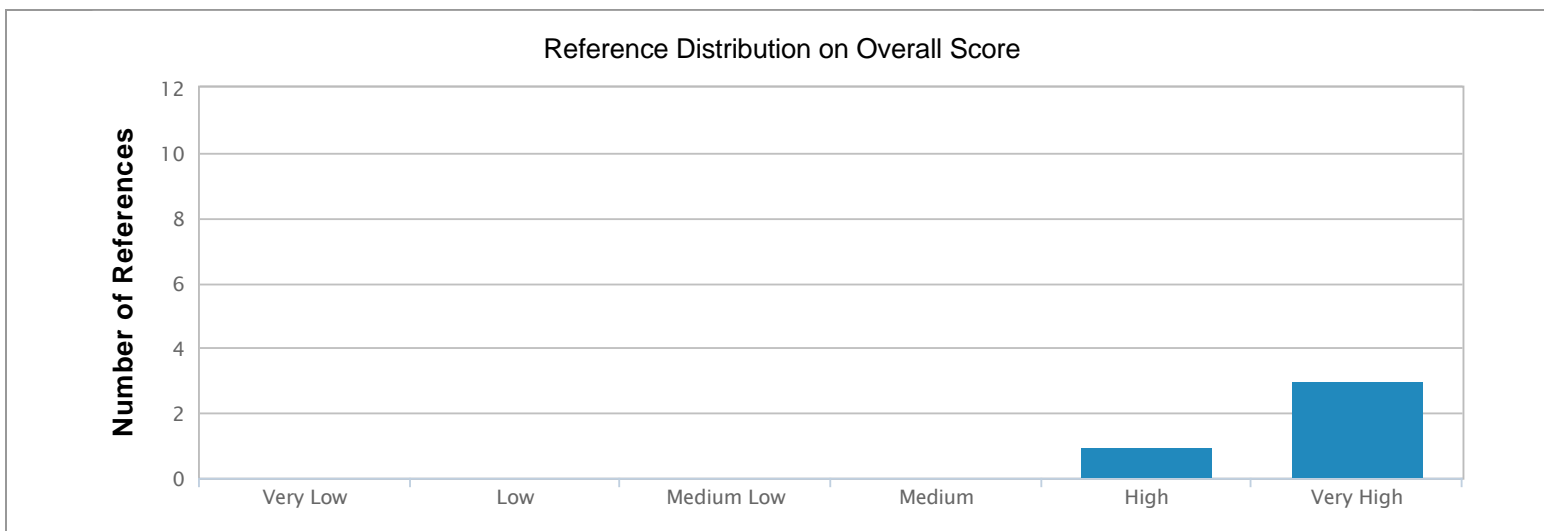

Note:

The information provided in this report is based solely on Reference feedback submitted through SkillSurvey's Pre-Hire 360 solution. This report should not be shared with the Candidate.

2. Responses to the question, "Would you work with this person again in the future?"

Yes: 4/4 (100%)

No: 0/4 (0%)

Section III: Verbatim Comments on Patricia Thomas

Note: Individual comments separated by horizontal lines

STRENGTHS:

*Quick Learner: The learning environment here is very fast paced and much of it is left up to the individual to self learn through Tutorials and etc. * Excellent customer service skills: Made sure she understood our customers issues and documented the issues so that they could be tracked and resolved. *Follow up: Always made sure that customers new where they were in the process of resolution.

Great personality. Incredibly diligent worker. Very talented.

She understands the big picture when it comes to priorities and resources. She treats her peers and superiors with equal respect. She will always strive to do the best job that she can do. I can honestly say that in 10 years of managing developers she is the best employee that I've ever managed, bar none.

Task Manager People skills Works hard

COULD IMPROVE:

Be more concise with non-technical people. Too much attention to detail. More self-confidence.

The only area that Patricia needs to work on is her confidence in her own work. She understands that she is a good employee, because she strives hard to be a good employee. But she sees others as "more technical" or a "better developer" than her. If Patricia embraced more of an architect role where she was the one finding new technologies and designing the solutions, she would take herself to the next level professionally.

See large picture at the cost of the details. Pushes herself too far. Takes on challenges that are not hers to take.

Company Information

Company: ABC Company
Address: United States

Does Reference/Referee want to be informed of professional development opportunities?: No

How to interpret the Red text for an IP Address:

An IP Address usually represents a unique computer that belongs to an individual. A **bold red color text** for an IP address on the report indicates that the same IP Address was used more than once and that there could be a problem with the authenticity of the References that a Candidate has provided. The following scenarios would trigger the **bold red color text**:

- If the Candidate IP Address is in red text, this means that the Candidate's IP address also matches the IP Address of one or more of the provided References

- If the Candidate IP address is not in red text, but one or more the References have a matching IP address in red text

We cannot guarantee that the above situations definitely mean that the references are not authentic. There is a possibility that Candidates and References can have the same IP address for legitimate reasons. For example, this may happen when some organizations have a corporate security policy where all outgoing traffic to the Internet is set to the same IP Address.

In instances where the Candidate and References do not work for the same organization, there is an increased probability that it's an issue with authenticity.
